Technical Skills

- Python
- Data Structures and Algorithm
- SQL
- MYSQL
- Numpy , Pandas

Functional Skills

- Problem Solving
- Leadership Qualities
- Team Management
- Interpersonal Communication

Fundamentals

- Django
- Webscraping
- Machine learning
- Java
- JavaScript
- HTML, CSS

Career Objectives

Skilled in Python and SQL, adept at problem-solving. Eager to contribute to innovative projects, collaborate in team environments, and continuously learn and grow as a software engineer.

Project & Internship

1. Machine Learning:

- Completed Project on "Machine Learning" in "NULL CLASS "and learnt to build real time application for "Age and Gender detector-Python". [11-2023 to 12-2023]
- Built real time application "Predict whether given image is Child or not-Python" using Machine Learning. [12-2023]
- Built Machine Learning model "Predicting Fuel Efficiency-Python". [01-2023]

2. Built a Web scrapping project for LinkedIn job scraping, connecting the extracted data to Google Sheets using OAuth 2.0 for efficient data management using python Scrapy. [01-2024]

3. Completed Internship in Mindtree and Trained in "Java, Python, SQL, CSS, JavaScript, Html". [02-2023 to 04-2023]

4. "Thermal Analysis on Fins with Different Geometries and Perforations" Using Catia and Ansys. [02-2023 to 04-2023]

Accomplishments

1. Secured 5star in Python programming and Problem Solving in Hackerrank.
2. Secured 278th rank in CWC coding champions conducted by Coding Ninjas.
3. Secured 1st in District level Chess Championship.
4. Selected State level in Basketball and Net Ball.
5. Worked as a School People Leader.
6. NCC Cadet with 'A' Certificate.

Certificates & Links

- Certified in Python by Srikanth Pragada Technologies.
